

## These are just 5 facts about Kitties!

- When a cat chases its prey, it keeps its head level
- Cats prefer their food at room temperature—not too hot, not too cold
- Landing on all fours is something typical to cats thanks to the help of their eyes and special balance organs in their inner ear. These tools help them straighten themselves in the air and land upright on the ground.
- A cat almost never meows at another cat, mostly just humans
- A fingerprint is to a human as a nose is to a cat
